

fx_attrib_with

Issues

Preamble prose that is not a workable item – kept verbatim as a raw segment.

WIT-¹⁵ – participant-attributed item carrying both attribution fields_{11 4 104}

Status: Queued Type: Feature Severity: High Created-By: @milos vasic Assigned-To: @someoneelse

This item carries both § . . attribution fields and must round-trip byte-identical.

WIT-¹⁵ – item attributed to the system agent only

Status: In progress Type: Bug Created-By: Claude Assigned-To: @milos vasic

System-opened item: created_by is the reserved Claude sentinel, assigned to the operator.
